BEGINNER STANDER

BEGINNER STANDER

STS Power Base Attachment

Allows participation in the classroom

Beginner Stander Specifications:

- Made of plywood 3/4" thick, 2ft' wide, 4' tall.
- Continuous slot running up and down for easy adjustments
- Quick lift up and swing away arm/hip support
- Chest and hip straps
- 4" foam knee support
- Quick removable tray
- Has anti-tip support post
- Quick release tilting lever

How It Works:

- Quick release lever behind wood stander to go from horizontal to vertical position
- Lay child on their back
- Put on knee block and chest/hip strap
- Release lever behind wood stander to bring to upright position
- Adjust hip/tray support
(Child's arms should be at a 90 degree angle)

Benefits:

- Allows standing with support
- Easy to position a person (anyone can operate it)
- Allows positioning a person at any degree or angle
- Switch or joy stick operated

Quick Release Lever operates with Omni and switches.

STS Power Base Specifications:

- (2) 34 AH gel cell batteries
- 24 volt P&G Electronics (multiple options)
